

Medical Release

The goal of Moore Auditory Integration Training is to screen client's auditory processing and visual/visual-motor processing skills to:

- 1) Guide referrals to professionals*
- 2) Provide resources and educational information*
- 4) Individualize Integrated Auditory-Visual Training Protocols*
- 5) Individualize Berard Auditory Integration Training Program*

Informed Consent

I give Cheri Moore permission to complete the Test of Auditory Visual Skills (TAVS) and visual processing activities. I agree to pay the evaluation fee of \$185.00 dollars and understand Cheri will provide a comprehensive report within a reasonable amount of time.
